AG BLEND

*Use as a straight organic fertilizer
or as a filler in blending operations.*

- ✓ Pasteurized poultry litter fertilizer
- ✓ Suitable for use on 100% organic farms
- ✓ Enhances synthetic fertilizer programs
- ✓ All-purpose, all crops
- ✓ Fortified with 70 natural minerals
- ✓ Available in granular & pellet form

3•3•3

AG BLEND in 100% Organic Farms

Derived from poultry litter, this product meets the guidelines of the USDA National Organic Program.

AG BLEND in Conventional Agriculture

According to new studies, processed poultry litter fertilizer is a valuable resource that has many advantages when used in conjunction with conventional fertilizers.

- ✓ Reduced pounds per acre of synthetic fertilizer
- ✓ Excellent carbon source to build soil health
- ✓ Excellent source of slow release Nitrogen
- ✓ Promotes disease resistance in plants
- ✓ Increases yields
- ✓ Increases organic matter
- ✓ Higher profits vs. input costs
- ✓ Adds 70 minerals for stronger plants and improved flavor
- ✓ Easy to spread in pellet or granular form

AG BLEND is a mixture of poultry litter, chicken manure and 70 naturally occurring minerals.

AG BLEND can be used as a standalone fertilizer or incorporated as a raw material component for blending synthetic fertilizers. Used in conjunction with synthetic fertilizers, it has dramatic impact on building soils and increasing plant productivity and yields.

Packaged in 1-ton Totes and Bulk
